NEWS FOR IMMEDIATE RELEASE

CK Telephone Develops reseller agreement with Optus for NEC's SV8100 robust PBX System

CK Telephone to Help Businesses Take Advantage of Leading Technology to Increase Profitability and Give Them a Competitive Advantage

ENID, OK — 9/19/11 — CK Telephone, a local telephone company and industry leader in telecommunications, announced today that the company has entered into an agreement with Optus to be a reseller of the NEC SV8100 phone system. NEC phone systems are ranked in the top 5 of all business telephone systems (<http://bit.ly/nKp3Zx>). We are excited to be able to offer our customers such a great product. We have received exclusivity of territory for northern Oklahoma.

The NEC SV8100 is a robust phone system designed to handle small to medium size businesses. The system has many great options; one being the ability to connect multiple sites allowing users to transfer calls or dial four digit extensions between those sites. This helps our customers save money on long distance and allows for better customer service.

The offering of this system allows CK Telephone customers an even wider variety of products and service to fulfill their needs and keep their businesses on the

cutting edge of technology. With the variety of products, this also allows CK Telephone to provide a service that will meet your budgetary needs.

ABOUT CK TELEPHONE

CK Telephone & Data traces its roots back 18 years when co-founders JE Close and Donald "Bud" Kain became heavily involved in the telephony industry. Kain started Ktel Communications in 1993 and joined with Close and his Close Communications Service in 2003. Together they hired their first employee and began aggressively pursuing telephone system and cabling opportunities in and around the Enid, Oklahoma area. In March 2005, Close and Kain created CK Telephone & Data Services in order to better serve their clients and broaden their service base, which today includes some prestigious organizations. CK Telephone & Data also has contracts to maintain multinational accounts. Some of CK Telephone & Data accounts are: Continental Resources, Atwoods (49 locations), Emmanuel Baptist church, Central National Bank (7 locations) and many local clients.

CK Telephone & Data (CKT) specializes in designing telephony and call recording solutions to North American industries. CKT supplies phone systems, hosted phone solutions, intelligent voice mail, voice recording software, AT&T telephone services, and IP telephony to maximize efficiency, and provide solid cost savings for our clients. CKT clients include financial institutions, manufacturing, transportation, call centers, auto dealerships, hospitals, and telephone answering services. CKT is privately held with offices in Tacoma, WA., Oklahoma City, Tulsa, and Enid. For more information, please visit our new website at www.cktelephone.com.

The philosophy at CKT has always been to provide high quality, leading-edge products at a competitive price and support those products with superior customer service, integrity, and professionalism. That philosophy continues today through dedication, a commitment to excellence, a team approach, and a can-do positive attitude.
